FINANCIAL SERVICES

To: Mayor and City Council

From: Rich Oesterle, Financial Services Manager (x8347)

Date: November 16, 2001

RE: Financial Statement for the First Quarter of FY 2001/02

Attached, for City Council consideration and review, are the City's comparative revenue and expenditure statements for the three (3) months ending September 30, 2001. Comparisons occur between the first three (3) months figures through September 2000 and 2001 as well as a comparison of the year-to-date totals to the current budget. Also included are cash management, debt service, and capital improvement schedule.

Revenues (Pages 1-3)

Not surprising given the state of the economy and the amount of press given lately to local government's revenues, the General Fund revenues are down, when compared to last year and below budget. Keeping in mind this report is through September 30th (August sales) and, within the last few days we've been reporting October revenue (September sales), City Sales Taxes and total local taxes are down 4% from a year ago and under budget. Intergovernmental revenue appears behind but is an artifact of accrual accounting. We anticipate Intergovernmental revenue to be down 2% when compared to budget at year's end. Development related revenues, simply put, are way down.

All Enterprise Fund revenues are behind. However, none of the planned rate increases for these funds has taken effect.

The General Fund, overall, is 6.7% or \$2.2 million below a year ago. While the total City revenue picture (including all funds) is down 7.0% or \$4.8 million.

Expenditures (Pages 4-6)

Total Citywide expenditures are within budget parameters. Certain pre-paid expenses i.e. insurance premiums weight heavily on first quarter averages. Given the City's economic plan to reduce spending by 3%, most departments will meet their budgetary expenditure goal.

Investments

Of note is the interest yields through September 30, 2001 when comparing to one year ago. The 6-month T-Bill discount rate has dropped almost 50% to 3.31%. Our investment strategy (still safety and liquidity foremost) has altered to shorter-term investments. Normally, we would invest in a 2-3 year instrument. Once the recession turns it course, we will again be looking for long-term investment opportunities.

Notes to the Statements:

- 1) Reflects the 01/02 Adopted Revenue Budget of \$262,354,270.
- 2) Certain prior year (September 2000) data have been reclassified to conform to current year presentation.
- 3) Amounts prorated for the three months ended 9/30/01.
- 4) Reflects the 01/02 Adopted Operating Expenditure Budget of \$251,625,475 less various year-to-date budget adjustments totaling \$4,000,362 less \$17,610,085 of pay-as-you-go transfers to the CIP program. The budget adjustments largely reflect a reduction in the amount of carryforward appropriations from the prior year.
- 5) Significant expending of current/prior year budget reflects large one time expenditures/encumbrances occurring early in the year which skew budget percentages, and/or abatements for these costs that have not fully been transferred to other departmental budgets.
- 6) Represents total citywide contingency program broken down as follows:
 - \$1,000,000 W/WW contingency
 - \$ 50,000 Refuse contingency
